

NEW CLEAN GLOW COLLECTION

FULL OF CLEAN GLOW FREE OF UNNATURAL FINISHES

Get glowing—fast. Customize your levels of color and illumination in three simple steps using the NEW Clean Glow Collection from bareMinerals. Bronze, highlight and set with clean formulas that build a lasting, good-for-skin glow.

bareMinerals Global Makeup Artist, Nikki DeRoest, uses this collection to impart her signature lit-from-within look on clients. “Together, these products blur the look of pores and give the most beautiful luminosity to the skin,” says DeRoest. “I love how fresh and glowy skin looks after application.” Made for all skin tones and types, these formulas are non-comedogenic, non-acnegenic and dermatologist-tested.

STEP 1: BRONZE

- **NEW Endless Summer Bronzer, SRP \$29:** This pressed powder bronzer has a matte finish and creates an even, virtually poreless-looking complexion. Infused with Gradual Glow Complex, it lends skin instant color and lasting warmth with or without makeup.
- **NEW BAREPRO GLOW Bronzer, SRP \$29:** A versatile liquid bronzer that can be worn alone, layered or mixed with other products. The long-lasting, featherweight fluid features superfine mineral pearls and complexion-perfecting botanical extracts.

STEP 2: HIGHLIGHT

- **NEW Endless Glow Highlighter, SRP \$29:** A glitter-free, pressed powder highlighter that produces a photo-ready glow but never leaves skin white or ashy. The formula minimizes the appearance of pores and floats effortlessly over fine lines.
- **BAREPRO GLOW Highlighter, SRP \$29:** This liquid highlighter can be worn alone, layered or mixed with other products. With light-reflecting mineral pearls suspended in clear liquid, MINERAL LOCK technology prolongs wear for up to 16 hours.

STEP 3: SET

- **NEW Dew Mist Setting Spray, SRP \$28:** The clean mist sets makeup in place and boosts overall luminosity. It provides instant and long-lasting hydration for dewy, healthy-looking skin. Use throughout the day to feel refreshed and hydrated.
